Chee Chiu Ng

Chee Chiu founded Websparks in 2008, an award-winning creative agency. With a team of more than 100 project managers, developers, and designers based in Singapore, Websparks has been helping government agencies, education institutes and MNCs to deploy multiple award-winning websites, content management systems and web portals.

Before founding Websparks, Chee Chiu was one of the founders of Evohub, a technology and web consulting company. It was the pioneer recipient of FUSE, a funding scheme from NUS for young entrepreneurs.

Chee Chiu is both a certified ScrumMaster and a Project Management Professional (PMP). He received his ITIL certification in 2016. Chee Chiu is a certified LeSS Practitioner.

Víctor Gómez

Inspired by a successful friend's experience in Italy, Victor embarked on this entrepreneurial adventure driven by curiosity about the Asian market, a desire to step out of the comfort zone, improve English proficiency, and enhance entrepreneurial skills for ongoing projects.

Throughout their partnership, the Victor and his Host Entrepreneur, Jay, engaged in a range of activities such as face-to-face and online mentoring, integrating AI into business processes, forecasting company accounting, defining expenses and pricing, refining sales strategies, and implementing techniques to enhance professional performance. This exchange not only facilitated skill development but also fostered a valuable cross-cultural entrepreneurial alliance.

Erasmus for Young
Entrepreneurs Global

An initiative of the

Florian Marthaler

Florian sought to expand business connections beyond the German market, particularly in Singapore. During the exchange, a systematic networking approach was employed, focusing on a sustainable energy hosting solution with an automation tool. Valuable connections were established in the solar energy sector, paving the way for a new energy solution.

The program not only enriched Florian's understanding of the solar energy markets in Singapore and Germany but also resulted in tangible benefits, including a foundation for business expansion and valuable connections crucial for the entrepreneurial journey.

Tesivald Danaj

Tesivald's journey over the last three years led to the creation of Eco.nomia, a startup focused on decentralized human waste solutions. Partnering with Benjamin Chua of SPECO, Tesivald engaged in activities to promote Speco products in Italy and participated in key networking events in Singapore.

The collaboration with M.A. Lakshmanan strengthened Eco.nomia, now applying for the HORIZON-CL6-CircBio-02-4 call. The startup envisions a decentralized system with waterless toilets and an innovative pyrolysis approach. Speco's success is evident in its recent collaboration with a major tourism company in Italy. Tesivald reflects on personal and entrepreneurial growth, considering various opportunities in Singapore's thriving environmental sector.

Erasmus for Young
Entrepreneurs Global

An initiative of the
European Union

Irene Masante

Irene aimed to refine their active packaging approach, while her Host Entrepreneur, Sandhya, committed to sustainable artificial meat, sought like-minded partners. The exchange involved knowledge-sharing sessions, feedback sessions, and extensive networking, fostering connections beyond the immediate collaboration.

The program's impact was transformative, refining skills and instilling motivation for sustainable solutions. Both startups experienced a mindset shift, marking a readiness for global expansion and industry leadership. As Irene notes, the program ignited a passion for sustainable solutions, while Sandhya emphasizes its role in pioneering a global, sustainable food revolution.
